

Kensington(K75502BE)

Kensington - Keyboard - wireless - 2.4 GHz, Bluetooth 3.0, Bluetooth 5.0 - Belgium

This compact wireless keyboard can be connected to up to three devices simultaneously (computer, tablet or phone) via Bluetooth (3.0 or 5.0) or 2.4 GHz with 128-bit AES encryption. Responsive scissor keys, including multimedia. Low-battery indicator, so you don't get any nasty surprises.

Key Selling Points

Compact design makes it easy to transport and use in confined workspaces

Dual wireless connectivity lets you choose between a Bluetooth (3.0 or 5.0) or 2.4 GHz connection with AES 128 encryption

Connect up to 3 devices at once (computer, tablet or phone) and switch from one to the other in seconds

Scissor keys are highly flexible and responsive, while multimedia keys act as shortcuts for the most common commands

Low battery indicator prevents unpleasant surprises

Complies with MIL-STD-810H, Method 504.3, which tests resistance to degradation when exposed to cleaning and disinfecting solvents such as alcohol and bleach for at least 24 hours

Product Features

Compact design

Easy to transport and use in confined spaces.

Dual wireless connectivity with 128-bit AES encryption

Bluetooth (3.0 and 5.0) and 2.4 GHz technologies with 128-bit AES encryption.

Connect three devices at the same time

Switch from computer to tablet to phone in seconds.

Scissor keys with multimedia keys and low-battery indicator

The scissor keys are extremely flexible and responsive. Multimedia keys act as shortcuts for the most common commands. The low-battery indicator prevents any unpleasant surprises.

Resistance to intensive cleaning

Complies with MIL-STD-810H, Method 504.3, which tests resistance to degradation when exposed to cleaning and disinfecting solvents such as alcohol and bleach for at least 24 hours.
