## Product Features

### Made to fit your hand

The contoured design of the mouse fits the shape of your hand for a comfortable palm grip to help you work efficiently and stay comfortable. A horizontal scroll wheel at your thumb allows for intuitive left-to-right navigation, while the vertical scroll atop the mouse grants fast scrolling through long documents and web pages or notched scrolling for precision.

### Work everywhere

Thanks to the track-on-glass sensor you can easily work wherever you need to, from glass and wood, to park benches and café tables alike. The dpi is adjustable from 800 to 8000 in increments of 200, so you can dial in the mouse to your preferences. The ultra-smooth gliding feet create a smooth and silent glide as you move the mouse for a more satisfying user experience.

### Seamless and secure connection

The dual-mode RF 2.4 GHz and Bluetooth 5.1 connectivity lets you effortlessly connect and switch with up to 3 devices (two connections via Bluetooth and one connection via RF dongle).

### Long-lasting charge

In just two minutes you'll get a charge for full-day use, while a full charge lasts many months with USB-C charging. This removes the need for batteries, thus reducing waste.
