Key Selling Points

- Create without limits
- Think with ink
- Easy note taking
- No printing required
- Writes like pen on paper
- 4,096 pressure points
- Responds to an artist's touch

Product Features

Create without limits

The Surface Pen is better and faster than ever, with precision ink on one end and a rubber eraser on the other - plus tilt for shading, greater sensitivity, and virtually no lag.

Think with ink

Windows and Office give Surface Pen more power than ever. Strikethrough words to delete, circle text to select, highlight using Ink Editor - and even replay the sequence of mark-ups from others.

Easy note taking

Taking and managing notes with OneNote is easier than ever. Do homework, replay notes to better remember your thoughts, and write out math equations that solve themselves using Ink Math Assistant - all in one place.

No printing required

Streamline editing documents with digital inking. Use your Surface Pen to annotate and highlight text and the built-in digital ruler to set things straight.

Writes like pen on paper

Surface Pen is a natural writing and drawing tool, with precision ink on one end that now enables tilt and a natural-feeling rubber eraser on the other.

4,096 pressure points

Sketch, shade, and paint with artistic precision and finer control with 4,096 pressure points that respond to the lightest touch.

Responds to an artist's touch

Effortlessly express the finest sketches and lines with Surface Pen. Rest your hand on the screen of your Surface device, just as you would writing on a notebook.

The power of Pen

Enjoy amazing inking experiences on your Surface with the Surface Pen and the advanced apps that now support tilt for artistic shading.
