

OtterBox React Magnets Samsung Galaxy S26 (77-99941)

OtterBox React Series - Back cover for mobile phone - clear - for Samsung Galaxy S26

The OtterBox React Series carrying case is designed for those who demand both style and protection for their cell phones. This protective cover features a one-piece design that ensures a precision fit, providing durability without the bulk. With raised edges and built-in magnets, this ultra-thin case safeguards your device from drops, scratches, and scrapes. The DROP+ technology adds an extra layer of security, offering drop protection while maintaining a sleek profile that fits comfortably in your hand. Crafted from 40% recycled MIL-STD-810G 516.6 compliance standards for resistance to drops and damage. The textured edges enhance grip and prevent slips, making it an ideal choice for busy lifestyles. Experience reliable protection without compromising style with the OtterBox React Series carrying case.

Key Selling Points

- Precision fit for optimal protection
- Ultra-thin design for easy portability
- DROP+ technology for reliable drop protection
- Made from 40% recycled plastic for eco-friendliness
- Textured edges for improved grip

Product Features

Robust Protection

The OtterBox React Series case provides comprehensive drop protection, camera protection, and screen protection, ensuring your cell phone is well-guarded against daily wear and tear.

Elegant Yet Functional Design

This carrying case features a sleek, ultra-thin profile with textured edges, combining aesthetics with functionality for a comfortable grip and easy handling.

Innovative DROP+ Technology

With DROP+ technology, this case is engineered to withstand drops and shocks, giving users peace of mind knowing their device is protected.

Environmentally Conscious Materials

Constructed with 40% recycled plastic, this carrying case protects your device and contributes to sustainability efforts.

Precise Engineering

The one-piece design ensures a snug fit with precision cut-outs, allowing easy access to all ports and buttons without compromising protection.
